QUANDELA

# Introduction

# Introduction

- Quandela is an expert in the fabrication of performing devices for the research in quantum **photonics** & quantum information
- They fabricate unique solid-state sources of quantum light
- These sources bring a new revolution in quantum technologies based on light
- The company's single-photon source device combines photonics & semiconductor

Founded & Founder

# Founded & Founders

- Founded: 2017
- Founders:
  - Niccolo Somaschi
  - Pascale Senellart
  - Valerian Giesz
- Headquarters:
  - Marcoussis, Bretagne, France
- Website: [quandela.com](https://quandela.com)
- Fund: \$17.3M
- Valuation: €60—90m (2021)
